

GILANG MUHAMAD WIDIAGUNG

Bogor, Indonesia | [gnالgilang@apps.ipb.ac.id](mailto:gنالgilang@apps.ipb.ac.id) | gimiaw.web.id | github.com/gimigkk

EDUCATION

IPB University

B.S. in Computer Science (Ilmu Komputer)

Bogor, Indonesia

GPA: 3.78 / 4.00

Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Organization & Computer Architecture, Programming Languages, User Experience.

TECHNICAL SKILLS

Languages: TypeScript/JavaScript, Rust, Python, Go, SQL (PostgreSQL), C#, C/C++, Java

Frontend & Full-Stack: Next.js (App Router), React, Tailwind CSS, Express, Node.js, Drizzle ORM, Prisma

Backend, Cloud & DB: Axum, SQLx, Supabase (Realtime), PostgreSQL, Cloudflare R2, Docker, WebSockets

Tools & Practices: Git, GitHub Actions, Linux, Playwright, CI/CD, OAuth 2.0 (PKCE), Asynchronous Queues

EXPERIENCE

Systems & Software Engineer | NoBrainDev Studio

May 2026 - Present

- Core engineer across 2,300+ Git commits in a 10-person agile team; named Top 20 National Finalist at GameSeed 2026.
- Architected asynchronous event-driven action queue resolving state desyncs and race conditions under concurrent inputs.
- Spearheaded codebase refactoring as sole net-negative line contributor, pruning technical debt and profiling memory to maintain locked 60 FPS.

Fullstack Developer | Ilkomers Batch 61 Academic Team

Jan 2026 - Present

- Built and deployed production academic services and automated bots supporting 150+ active Computer Science students.
- Engineered PostgreSQL relational schemas, automated containerized microservice deployments via Docker, and maintained 99.9% uptime.

Lead Developer & Creative Operations | IEEE Student Branch IPB

Feb 2025 - Present

- Lead engineering and digital operations for 12-person publishing and media team across student divisions (formerly Officer of Creative).
- Standardized internal digital asset delivery pipelines, cutting revision turnaround times and cross-division handoff friction.

PROJECTS

COPM: Center of Publication Media | Next.js, TypeScript, Drizzle ORM, Supabase, Cloudflare R2

- Architected multi-workspace Kanban publication platform for IEEE SB IPB, replacing fragmented WhatsApp/Drive workflows across 4 divisions.
- Implemented drag-and-drop task stages (@dnd-kit) and live collaborator presence indicators via Supabase Realtime channels.
- Built type-safe data layer with Drizzle ORM and Zod schema validation; integrated Cloudflare R2 presigned URLs for secure asset distribution.

MARBOT: WhatsApp Academic Assistant Bot | Rust, Axum, PostgreSQL (SQLx), Docker, Gemini/Groq

- Engineered automated academic reminder bot serving 150+ students with 20+ daily queries via WhatsApp protocol.
- Built zero-downtime multi-tier AI fallback pipeline (Gemini to Groq/Llama) with semantic query deduplication to eliminate repeated questions.
- Enforced compile-time SQL query safety using SQLx, 07:00 AM cron task schedulers, and real-time MPSC log dashboard.

Elera Education: Commercial Client Web Platform | Next.js, React, TypeScript, Tailwind CSS

- Delivered production web platform for Yogyakarta home-tutoring venture as first commercial client engagement.
- Built interactive tuition tier calculator and structured WhatsApp deep-link engine, driving direct parent inquiries.
- Scored 100/100 Lighthouse performance rating with zero cumulative layout shift (CLS: 0), optimized caching, and SEO.
